

# **Wayfinding Web2.0 User Manual**

## Brief Instruction

WayfinderWeb2.0 is a user-friendly software, which only takes a few minutes to make a guiding system. You can make a map guiding, place information, special promotion, event notification, etc. After editing, it can be shown on any system (Windows, Android, MAC, etc.). To provide a mobile-guiding function, the system will generate a QR code for each project. Users can scan the QR code to get a map and follow the instruction easily. Wayfinder Web2.0 can be used on multiple devices.

# Enter Software Interface

Please go to <http://www.wayfinder.url.tw/wayfinder/en-us/>

## Main Interface of Wayfinder

The screenshot shows the main interface of the Wayfinder website. At the top, there is a navigation menu with links for "About us", "Selected", "Showcase", "User", and "Contact us". The "WayFinder" logo is prominently displayed on the right side. Below the navigation, there is a search bar with a dropdown menu set to "English" and a "Search" button. The main content area features a large image of the Wizarding World of Harry Potter castle. Below this image, there is a section titled "The Wizarding World of Harry Potter TM" with a QR code and a brief description. To the right of the main image, there is a "Showcase" section with several smaller images, including a golden snitch, a train, and a character's face. At the bottom of the page, there is contact information for Persona Rich Source Precision Industry Co., Ltd., including a telephone number and an address in Taipei, Taiwan.

## Member Login (USER)

The screenshot shows the "WayFinder User console" login page. The page has a dark background with white text. At the top, it says "WayFinder User console". Below that, there is a section titled "USER LOGIN". There are two input fields: one for the username "wayfinder" and one for the password, which is masked with dots. Below the password field, there are two buttons: "VERCOD" and "BWER". At the bottom, there are two buttons: "Login" and "Forgot password".

※We'll provide you the login ID and password, if you haven't had it yet, please contact us.

## Main Screen

## ③ The setting orders to set buildings

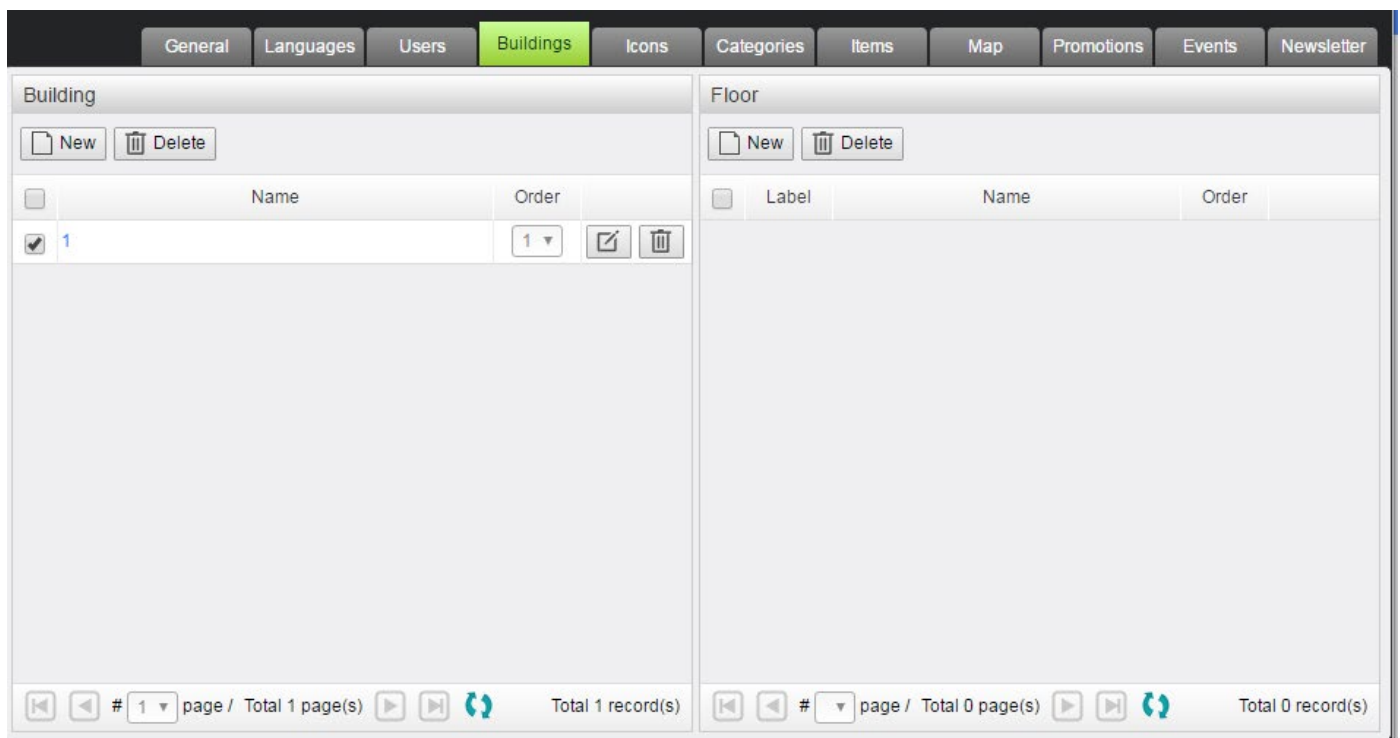

The screenshot displays a web application interface with a dark navigation bar at the top. The 'Project' menu item is highlighted in green. Below the navigation bar, a secondary menu shows 'Buildings' as the active section. The main content area is split into two panels: 'Building' on the left and 'Floor' on the right. Each panel contains a 'New' button with a document icon and a 'Delete' button with a trash icon. Below these buttons are empty tables with headers: 'Name' and 'Order' for the 'Building' table, and 'Label', 'Name', and 'Order' for the 'Floor' table. At the bottom of each table is a pagination control showing '# page / Total 0 page(s)' and 'Total 0 record(s)'. The footer of the application shows the 'UI language' setting with four options: '繁體中文' (Traditional Chinese), '简体中文' (Simplified Chinese), 'English' (highlighted in green), and '日本語' (Japanese).

- Click  to add a new building

- Please fill out the above information and save

- Add details information for the icon which you want to show on the map
- Choose a category and set KEYWORDS for users to search easily

※Same ways for new facilities/utilities/transport/other

## ⑦ Map Setting Step

- ① Fold Toolbox: Hide or show up the menu
- ② Zoom in / original / out: Zoom in/out map size
- ③ Floor Combo box: Choose the map of different floor / Building
- ④ Hand: Drag an item from the item list to map and fix the position
- ⑤ Itinerary: Draw route from one position to each location
- ⑥ Delete: Delete route or item mark on the map
- ⑦ Save: Remember to save edition before leaving this page
- ⑧ Item / Category Combo box: Choose location by Item / Category type
- ⑨ Item List: List location mark after choosing
- ⑩ Map Editing Area: Show map and do ④ ~ ⑦ option

## ⊗ Promoting setting order

The screenshot shows a web application interface with a top navigation bar containing tabs: General, Languages, Users, Buildings, Icons, Categories, Items, Map, Promotions (highlighted), Events, and Newsletter. Below the navigation bar is a 'Promotion' window with 'New' and 'Delete' buttons. A table lists promotion records with columns: Name, Location, Start, and End. One record is visible: 'aaa' at 'the Hog's Head' from '2016-07-04 12:00' to '2016-07-04 13:00'. The bottom of the window shows pagination: '# 1 page / Total 1 page(s)' and 'Total 1 record(s)'. At the very bottom, there is a language selection bar with options: 繁體中文, 简体中文, English, and 日本語.

- Add details information about promotion, which can broadcast your latest sales campaign

The screenshot shows the 'Promotion > New' form. It has input fields for 'Name', 'Location' (with a dropdown menu showing '-- choose --'), 'Start', and 'End'. A date-time picker is open over the 'Start' field, showing a calendar for August 2016. The date '22' is selected, and the time '10:00' is selected from a list of times: 10:00, 11:00, 12:00, 13:00, 14:00, and 15:00.

- Set Promotion Name, Location and Start / End time

## ⑨ Event setting order

The screenshot shows the 'Event' management interface. At the top, there are tabs for 'General', 'Languages', 'Users', 'Buildings', 'Icons', 'Categories', 'Items', 'Map', 'Promotions', 'Events', and 'Newsletter'. The 'Events' tab is active. Below the tabs, there are 'New' and 'Delete' buttons. A table lists the events:

<input type="checkbox"/>	Name	Location	Start	End	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	Beer Pushing Game	the Hog's Head	2016-06-30 14:00	2016-06-30 15:00	<input type="checkbox"/>	<input type="checkbox"/>

At the bottom, there is a pagination control showing '# 1 page / Total 1 page(s)' and a 'Total 1 record(s)' indicator. The UI language is set to 'English'.

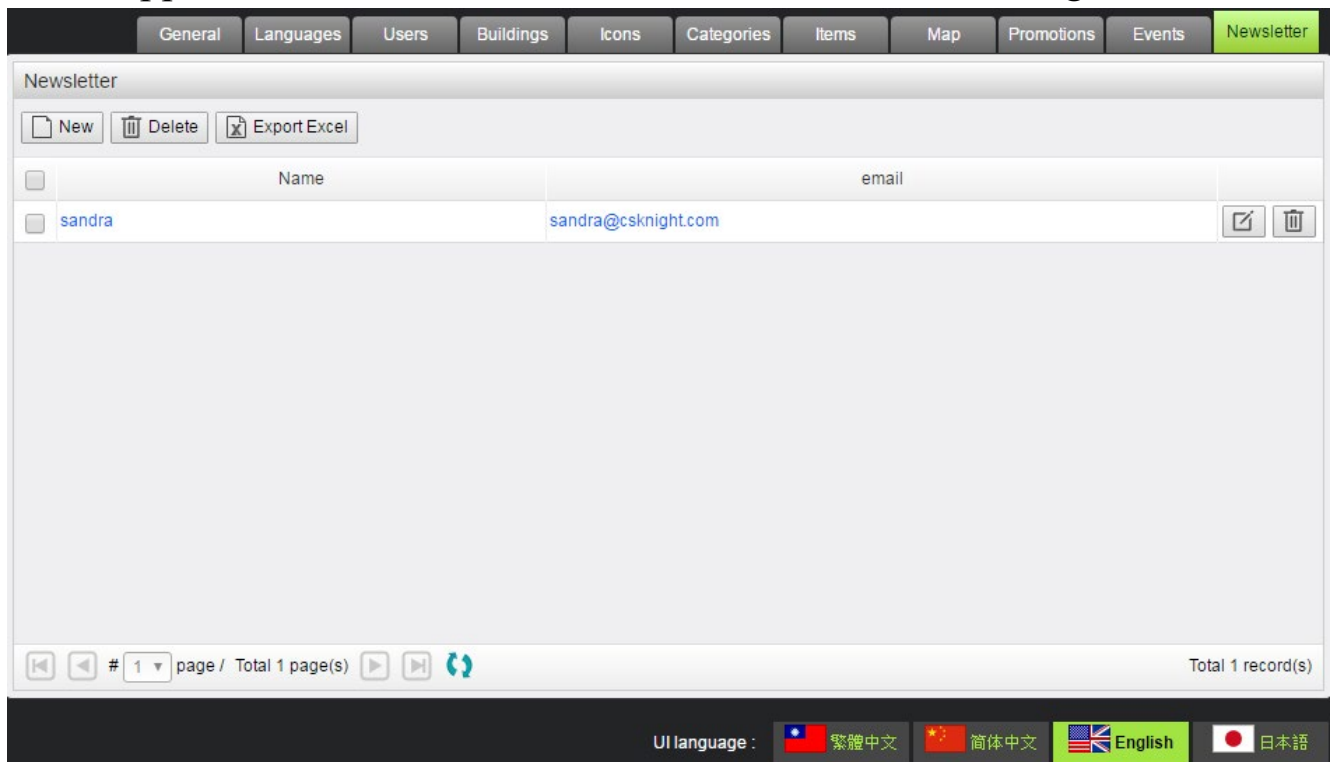

- Add detailed information about events, which can broadcast the latest activity

The screenshot shows the 'Event > New' form. The form has fields for 'Name', 'Location' (with a dropdown menu), 'Start', and 'End'. A calendar and time picker overlay is visible, showing 'August 2016' and '10:00' selected. To the right, there is a 'Languages' section with tabs for '繁體中文', 'English', and '日本語'. Below the languages, there are fields for 'Name', 'Description', and 'Keywords'. A 'Save' button is at the bottom.

- Set Event Name, Location, and Start / End time

- End users can leave their email address to get the latest news
- It supports to collect customers' information at the backstage.
